

# IMPACT INSTANT CANOPY

Make a long-lasting impression with the Impact Instant Canopy “ML” Frame. The ML frame is made of aircraft quality aluminium for superior strength and durability. Its distinctive hexagon design makes the ML frame both functional and aesthetically engineered.

By constructing the leg components of the “ML” Instant Canopy Frame from hexagon shaped extruded aluminum tube we were able to save weight while adding strength and durability. The “ML” Instant Canopy Frame will out last and out perform any current aluminum Instant Canopy Frame on the market. It will Eclipse all others.

For added support and stability an oversize steel foot pad is securely fastened to each telescopic leg.

## Features:

- Aircraft quality aluminum hexagon tubing of 2"
- Nylon/Fiberglass composite joints
- Oversize plated heavy duty steel foot plates
- Head clearance: 7' & maximum height: 11'
- Available in: 10' x 10', 10' x 15' & 10' x 20'

## Canopy Tops

The Impact Canopy tops comes in multiple sizes and colors. The Impact Instant Canopies are equipped with a premium 500 denier polyester top that is water, mildew and rot resistant and meets ULCS 109, CPAI 84 and NFPA 701 Fire codes.

## Accessories

Customize your shelter to fit your needs. Add Side walls, front zipper side walls, rail skirts, Mesh walls, panorama walls, rain gutters, commercial roller bag, premium weight bags, commercial stake kit, corner curtains to your canopy and you are ready to go.
